

# Dominican Republic in pictures

Picture of the UBC team with the girls in front of the current Ketty's House.

## The UBC team

12 women from Uniontown Bible Church came to spend 5 days with the girls at Ketty's House. Some of the highlights of our time were giving the girls their first Bible, playing, singing and dancing games with the girls and going to the Botanical Garden. The UBC women doubled in size from their last trip and were pleased to see a lot of the progress made at Ketty's House, especially connecting with Maria (project director) and Mariluz, who was able to share about her continuing hygiene education with the girls.

The UBC women threw a party as we celebrated the girls receiving their first Bibles.

The girls love to pose for the camera with their "fashion" glasses.

The UBC women teach the girls a song with it's hand motions.

The last day the girls personalized their Bible covers for their new Bibles that they had received.

During the day at the Botanical Garden, some of the girls found an almond tree and opened the shells with rocks.

The three main leaders of the UBC group pose with 2 of the girls at the Botanical Garden.

## Renee visits the DR/ Rice Container arrives

Renee visited us right before the UBC team came in April. She spent time talking with each department at the office, talking with the project directors during our monthly meeting, and even spent a day with the UBC women at Ketty's House.

That same week the rice container arrived and with help from projects and people from the Herrera community we unloaded in several hours.

Renee speaks to the project directors during her visit to the Dominican Republic.

Sergio (in red) helps unload one of 1320 boxes of rice April 12th. Projects met at the container to take their boxes.

Jackie's House loads up their van with the rice boxes. They were able to take 80 boxes!
